

in co-operation with

International Energy Agency

Austrian Ministry of Transport, Innovation and Tech-

Austrian Photovoltaic

invites to the international Symposium

Photovoltaic - Electricity from the Sun

Research - Marketing - Dissemination

- Date:** Fri, Sept 13, 2002
- Time:** 9.00 a.m. to 5.00 p.m.
- Location:** Vienna, Chamber of Commerce
Wiedner Hauptstrasse 63, A-1041 Vienna
- Registration:** pvsymp@arsenal.ac.at
- Language:** English/German (Simultaneous Translation)
- Participation fee:** 150.- Euro includes handouts, coffee and lunch

The main target of the symposium is to provide updated information about the following subjects:

- **Information about the activities in IEA-Photovoltaic Power Systems Program**
- **Experiences and Status of PV in different countries**
- **Marketing, promotion incentives and dissemination strategies for Photovoltaics, RTD and Training**

For prospective Energy-political decisions independent and detailed information are needed. Moreover the professional and customer orientated dissemination of RTD results is the condition qua non to transfer existing know-how and to promote the dynamic progress of Photovoltaic.

Invited speakers will give presentations on these subjects and related actual RTD results within the IEA PVPS Programme. The symposium intends to inform participants from the solar and building industry, from utilities, from research laboratories, from standardization bodies and from energy agencies as well as political decision makers, system designers, installers, operators and teachers with up-to date information. **Especially participants from East Europe (Hungary, Slovenia, Czech, Slovakia, Poland) will be invited for building a bridge in PV activities to the candidate countries of the European Community.** Success stories, best practices as well as future policy and research actions will be presented. In order to ensure the communication flow it gives also the opportunity to discuss interactively with international experts. Furthermore the symposium intends to encourage contacts between the international participants.

It will be a pleasure for us to welcome you at this symposium in Vienna. For further information, please contact:

Fri, Sept.13, 7.30 p.m.: Joint visit of a Viennese "Heurigen"

Costs: EURO 35.-

Sat, Sept 14, Technical Tour:

Visiting successful PV implementations in Austria like

- 1) the 200 roof programme in the community Hartberg
- 2) the Styrian solar road and
- 3) the 100kWp PV sound barrier at the A2 highway in Gleisdorf

(all places are about 120 km south of Vienna)

Tour ends at about 16.00 at the Vienna international Airport in Schwechat.

Costs: EURO 90.-

Fax: +43 (0) 50550 6390
